Statement

Classification to EN 13501-1 for Polycarbonate sheets Manufacturer: Arla Plast AB

Based on the result from Classification report 19614D, where the Polycarbonate products, Makroclear, Makrolife, Colorado & Colorado UV was classified as Bs1d0 according to EN 13501-1: 2007 Fire classification of construction product and building elements.

Test set up: 0,75 – 6 mm

Building - European (Fire-smoke-droplets) : validity in theory unlimited			
Classification	Thickness	Product	Test & Standard
Bs1d0	0,75-6 mm	MAKROCLEAR, MAKROLIFE, COLORADO	EN 13501-1

To EN 13501-1 Reaction to fire testing: it is technically not possible to test sheet over 6 mm thickness. There are however indications that class B-C-D could be obtained.
